DETAILED ACTION

1. Applicant's election without traverse of invention group I, claims 1-24, and the species of co-administered compound, claims silent with respect to a c-administered compound; osteoblasts as the cell type; and creatine pyruvate as the compound, in Paper No. 9 is acknowledged.

A further restriction is required for the elected claims. See the following action.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 8-14 and 19-21, drawn to a method of affecting bone or cartilage growth comprising administering (e.g., orally, see the specification, page 5) to the subject creatine compounds, classified in class 514, subclass 565.
- II. Claims 4-6, 15-18, drawn to a method of affecting bone or cartilage growth comprising cell culturing using cells derived from bone or cartilage, and implantation, classified in class 424, subclass 423, 548, 549; class 514, subclass 565.

3. The inventions of Group I and II represent separate and distinct methods. They differ with respect to ingredients (creatine compounds only in Group I, and cell culture in group II), method steps (simple administration in group I, and cell culturing and implantation in group II). They therefore have different issues regarding patentability and enablement and represent patentable distinct subject matter. The difference is also evidenced by the different classification.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. Further, as indicated by the different classification,

Art Unit: 1617

search of group II is not required for search of group I. Therefore search of all the invention is seen to be an undue burden to the examiner.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shengjun Wang, Ph.D. whose telephone number is (703) 308-4554. The examiner can normally be reached on Monday-Friday from 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1235.
